

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

The "Sidewalk Sale" held last Thursday by the Hamlin merchants seem to be a successful event and everybody appeared to have a good time in spite of the broiling sun. Chances are good that this will turn into an annual affair.

With the merchants having more time to prepare for the sale it could grow into a tremendous affair with strong participation on the part of everyone.

While the rodeo managed to avoid being rained out it was nearly blown out the first night but then came back strong the next two nights to turn out to be a successful show. The Riding Club still does not know whether or not they broke even since all the bills are not in yet. They still feel in all it was a pretty good weekend.

We received a news release this week from a Dr. Fred Tarpley, professor of English at East Texas State University. It seems that Dr. Tarpley is publishing a dictionary of Texas place names and he is seeking assistance on several Jones County names with unexplained origins.

Dr. Tarpley is trying to find information on the following names in Jones County: Betty Dell Oil Field, Billups O. F., B.M.W. O.F., Central, Ericksdale, Golan, Irvin O.F., Matilda O.F., Neinda, New Hope (school and church), Noodle Creek, Radium, Tina O.F., and Wright O.F.

If you have any information on any of these names the information would be welcomed by Dr. Fred Tarpley, Department of English, East Texas State

While the rains this week may have solved many of the problems of some of the cotton farmers in the area but many we are sure still do not have enough moisture. The whole situation still hinges on whether or not we get more general rains in the days ahead.

We received the following information this past weekend from the Rolling Plains Cotton Growers, Inc. that we are passing on. Since we have a hard time keeping up with our own business and its rules and regulations we do not pretend to understand the government regulations concerning the farmers and therefore just pass along what is given us.

"With drouth conditions prevailing over much of the Rolling Plains and cotton planting time fast getting away from us, all decisions on whether to dry plant or not to plant at all should be based on a thorough understanding of the rules that govern each particular situation", said Charles Stenholm, executive vice president of R. P. C. G. "Every Rolling Plains farmer should check with his local county ASCS office to be certain that he is meeting all requirements and has all the necessary information.

"There is one particular requirement especially important to farms with proven yields," continued Stenholm, "All farms with proven yields and - or who intend to have proven yields in the future should pay particular attention to the rule that says you must have production in each of the preceding three base years in order to qualify for a proven yield for your farm. If you do not have any production in 1967, you will lose your proven yield in 1969, 1970 and 1971.

"Even if it is too dry to plant your cotton, it will pay you to plant .1 (one tenth) of an acre or more in a workmanlike manner and irrigate it in any manner that you can in order to secure some production (one-tenth pound or more) in 1967.

"As ridiculous as this may sound this one act may put hundreds of dollars into a lot of farmers' pockets in future years" continued Stenholm. "So even if it is too dry to plant like you want to, figure out some way to make a little cotton somehow. Then when 1969 rolls around and you are not satisfied with your county yield, you can bring in your production records and secure a proven yield based on what you have actually made.

REPAIR BROKEN LINE — City employees worked about 3-hours Thursday repairing a broken water main on Southwest Third Street. The four-foot rupture in the line was discovered about 10 a.m. when water started surging through the bricks in the street. A six-

foot piece was replaced in the 8-inch line and service was restored in the 200 block of Central about 1:10 p.m. Only one block was without service. Water Superintendent Bill Rountree said that the break could have been caused by a surge in the line.

Cheryl Gibson Named Rodeo Queen Saturday

Cheryl Gibson was named Rodeo Queen at the final performance of the Hamlin Riding Club Amateur Rodeo here Saturday night.

Area Language Disorders Project Gets Approval

Washington, D. C. Congressman Omar Burleson announced today Office of Education approval of a Tutors of Language Disorders Project to be conducted by the Abilene Independent School District, to serve Fisher, Jones, Taylor, Shackelford, Callahan, Coleman and Nolan Counties.

The program will be planned and operate to diagnose language disorders and their relation to behavior. Instructional methods will be designed and tutors will be provided by the area colleges. The tutors and the regular teachers will receive inservice training.

This is one of 49 projects over the United States which had been placed in the "Hold" category pending program negotiations. This program is authorized under the Elementary and Secondary Education Act of 1965 (P. L. 89-10) Title III, Supplementary Education Centers and Services.

The Abilene Independent School District seeks \$50,000. for this project. Commitments for funds will be made after negotiations and execution of grant awards.

Four Break-Ins Reported This Week by Merchants

Four break-ins have been reported by Hamlin businesses in less than a week.

John's Boot and Saddle Shop and O. H. Weaver Texaco service station were hit Friday or early Saturday morning.

John Johnson, owner of the boot shop, discovered the break-in Saturday morning when he opened for business. The thieves gained entry through the back door after breaking the lock. He reported 20 pairs of work and dress western boots and numerous belt buckles, straw hats and spurs missing.

At the service station, Weaver said the station was entered through a window in the back. Blood, apparently from the cuts received after breaking the window, was smeared throughout the building. Weaver estimated his loss at \$12 in cash.

Early Wednesday morning a break-in at Frank's Department Store was discovered by night watchman Donald Lee while he was making rounds. He called Ray Sonnenburg, a partner and manager of the store, about 4 a.m.

Sonnenburg said that the hail screen was ripped off the back door and the glass in the back door was broken out. Entrance into the building was through the opening made in the door.

He said that shoes in men's sizes were taken complete with boxes. Other items missed early Wednesday were men's wearing apparel.

A complete inventory of the

loss had not been finished by press time.

The round house at the Santa Fe depot was also hit sometime Tuesday night or early Wednesday. J. K. Strother, employee, found contents of record cabinets, dumped into the floor. The only item missed Wednesday morning was a shop hammer, according to Weldon Johnson, agent.

Mrs. Dollie D. Harden, Hamlin Pioneer, Dies

Mrs. Dollie D. Harden, 86, a woman who played a major role in the early history and development of Hamlin, died at 12:10 p.m. Monday in Hamlin Memorial Hospital after a two week illness.

One of the first settlers in Hamlin, Mrs. Harden and her husband, the late Mr. Thaddeus E. Harden, moved here in 1907.

She was born Apr. 6, 1881, in Stephens County, daughter of the late Mr. and Mrs. Joseph E. Baggett. She and Mr. Harden were married in Stephens County, Feb. 5, 1899. He died in 1949.

She was a member and one of the founders of First Methodist Church here. She was active in the Woman's Literary Club and a former member of the Hamlin School Board.

She was also a member of Eastern Star and had been president of the Hamlin Cemetery for several years. During her lifetime, she provided financial assistance for the education of many youngsters. She was a self educated person. She donated the old Harden Home to the Woman's Forum to be used as a library. The Harden Memorial Library is still in operation.

Services were held in the First Methodist Church Tuesday at 2 p.m. by the pastor, Rev. Cecil Hardaway.

Burial was in Hamlin East Cemetery.

Survivors include two sons Harold of El Paso, Thaddeus Jr. of Fort Worth; two daughters, Mrs. Ineth (Vivian) Williams of Slaton, Mrs. Bob (Karen) McCracken of Corpus Christi; two brothers, Lewis Baggett of East-

Mr. and Mrs. Frank Martin of Monmouth, Ore., are visiting here with her mother, Mrs. J. F. Drennan, and sister, Mrs. Delbert Rountree, and his sister, Annie Evans.

Mr. and Mrs. Charles Allen Scott of Anson are parents of a son, William Paul, born June 7, at 3:46 p.m. He weighed 4 lbs. 12 oz.

Little League To Sponsor Supper Friday

The Fried Chicken Supper sponsored by the Little League will be held from 5 to 8 p.m. Saturday, June 17, in the primary cafeteria. Tickets are now on sale by the Little League players for \$1 per person.

The menu will feature chicken, potato salad, beans, drink and cake.

Billy Bush, Little League president, urges everyone to support the Little League program by attending the supper.

The continuance of the Little League program depends upon the success of the money raising projects. Bush said that the high cost of equipment, uniforms, utilities must be met in order for the Little League to continue.

There are four Little League teams, four Farm Club teams and three Pee Wee teams taking part in the program this year.

Two to Attend Band School

Dianna Crowley and Rhea Sue Vaughan, will attend the McMurry College Summer Band and Twirling School scheduled to open on the McMurry campus July 9 through 22, according to Dr. Raymond T. Bynum, band school director.

Tim Jones, Hamlin High School band director, will instruct in French horn.

LEMONADE STAND KEPT BUSY — The Lemonade stand at Frank's Department Store was a busy place last Thursday during the Sidewalk Sale put on by Hamlin merchants. Businesses moved

merchandise out on the sidewalk for the special sale and sales personnel seemed to enjoy the day selling and visiting with passersby.

FOUNDATION

Our nation is witnessing a building boom, such as has never before been seen. Every day new foundations are being dug and laid. Any builder will tell you that it takes a firm foundation to support today's skyscraper.

Our Lord, in His sermon on the mount, compared those that heed His word, to the wise man that built his house upon a rock, and those that did not heed His word to the foolish man that built his house upon sand and it was washed away.

Build your house upon a rock...Attend church regularly.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Sylvester News...

By MRS. R. N. BABB
My, we really have a black cloud coming up, the street light has just come on at 9 a.m. It is so dark and we may have most any thing before this cloud is over. We had .56 in. rain early Sunday morning. We can use rain but just hope we don't have any hail.
Mrs. E. M. McCright spent several days in Wilkerson Clinic in Roby but is home at this time and doing fairly well.
Mrs. E. P. Harris has been in Hamlin Hospital for over a week but is improving.
Mrs. Roy Herron had to remain in Hamlin Hospital all last week but was better on the Saturday.
Mrs. Ross Douglas came home on Saturday.
Mrs. Hugh Hood's brother and his wife spent several days in the Hood home before driving to Ariz. and Calif. for visits with other relatives. They are from Michigan.
Mrs. Ella Scott spent the past week with her sister.

Mrs. Joyce Poore in Abilene.
Mr. and Mrs. Charles Scott are the proud grandparents of another grandson, a 4 lb. 12 oz. red haired boy born June 7 at Hamlin Hospital. Helen and son went home on Saturday.
Mrs. Melvin Thompson is home and feeling better.
Capt. Jim Lanning arrived home last Friday for two weeks of good home cooking and rest. He will only be able to spend a few days with his brother, Cadet Lee Lanning as he leaves June 15 for Ft. Sill, Okla., for six weeks of R.O.T.C. Camp.
We are very happy to have Jim home and will be glad when he can come home to stay. He has received many medals and awards but that is something he doesn't like to talk about. He feels that he is there to do a job and that is what he intends to do if he can, if only all the country felt the same there wouldn't be all this conflict here at home and things would be straightened out faster in other places.
Mr. and Mrs. Thurman Douglas and family drove to Little Rock, Ark., over the weekend to visit and attend to business.
Mrs. Arch Griffin is doing well after surgery in Okla. City, Okla. last week.
It is 62 degrees outside and really raining. I haven't been out to check my rain gauge but am sure we have already had nearly an inch.
Mrs. Chub Hardwick is spending a few days in Abilene with her son, John, and other relatives.
Mr. and Mrs. Wesley Ma-berry of Dallas spent the weekend in Hamlin and Sylvester with relatives.
Now at mail time, we have had 2.10 in. of rain. It is clear now.
1,734,853 Medicare patients had at least one day's hospitalization in July-December '66.

Work Completed On Two Road Projects In Stonewall County

Highway construction work has been completed on 6.92 miles of highway in Stonewall County. A contract was awarded to J. H. Strain and Sons, Inc. of Tye by the Texas Highway Commission on June 10, 1966, for construction work consisting of two projects.

The project on U. S. Highway 83 is 3.39 miles in length and begins at the intersection of F.M. Highway 610 in Aspermont and extends to the intersection of U. S. Highway 380 north of Aspermont. The work consisted of grading, structures, flexible base and asphalt concrete pavement. Curb and gutter was installed on the west side form F. M. Highway 610 north to Tenth Street and installed on both sides beginning at Tenth Street to the north city limits. The completed section is 64 feet in width and consists of four 12 ft. travel lanes and two 8 ft. parallel parking lanes. The construction cost of this

project was \$321,988.18. The project on F. M. Highway 1263 is 3.5 miles in length and began at the end of the existing pavement approximately 8.5 miles northeast of Aspermont and extends to the pavement at the Mount Olive Cemetery. The work consisted of grading, structures, base and surfacing. This also included a bridge across the Salt Fork of the Brazos River. The bridge is 400 ft. in length and is approximately 200 ft. downstream from the old structure. The completed roadway section is 22 feet in width with a 20 ft. one course asphalt surface. The construction cost of this project was \$177,807.18.

Nelson Shave, Supervising Resident Engineer of Hamlin is in charge of the projects while they were under construction.

15,776,000 persons over 65 received social security checks for February '67.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — A task force of federal officials, here for a conference on federal-state relations got an earful from disgruntled state agency officials who complained of poor communications between Austin and Washington.

Gov. John Connally opened the conference by telling the men from D. C. that the federal system is characterized "by misunderstanding, disharmony and, in some instances, utter confusion."

Other state officials got down to specifics when the conference broke up into small groups to discuss intergovernmental coordination, health and welfare, education, water development, outdoor recreation, economic opportunity and manpower development.

They said that they want to be consulted in advance about proposed programs; they want federal agencies to work through state agencies on local programs; they want block grants which would give state agencies great-

er latitude in tailoring federal programs to fit local needs; and they want specific recommendations from Washington as to what to do.

Since the federal officials had been through similar sessions in 39 other states, they took the criticism without flinching.

Enough oil? —

Texas Railroad Commission is keeping an eye peeled on the Middle East Crisis in case it becomes necessary for Texas to help make up for crude oil shortages growing out of the hostilities between the Israelis and the Arab nations.

Commission Chairman Jim C. Langdon said Texas has enough reserves to meet any emergency; but while increasing oil allowances is easy, overcoming logistical problems would require ingenuity.

Institute of Texan Cultures —

Newest state office to open in Austin is the Institute of

Mrs. Joyce Hardin To Get Masters

Mrs. Joyce Hardin, who will receive her master's degree from Texas Christian University in August, has been named instructor in speech at the University.

Effective in September, the appointment to the School of Fine Arts faculty was announced by Dr. James Newcomer, TCU vice chancellor for academic affairs.

Born in Hamlin, Mrs. Hardin earned her B. A. degree from Texas Technological College in 1949. While doing her graduate work at the University of Texas, she was a teacher of exceptional children at The Brown School in Austin during 1950-52 and later worked with deaf children in the Fort Worth Public Schools.

Texan Cultures. Its task is to assemble educational exhibit material for the ITC building at the HemisFair in San Antonio.

After HemisFair '68 closes its six month's run, the educational program by the State of Texas will be continued there as a permanent feature.

Institute is under the direction of H. Henderson Shuffler, former West Texas newspaperman who has been heading the UT programs for the past five years. Exhibits will portray the colorful history of Texas in terms of the people who made that history. COURTS SPEAK

Supreme Court will hear arguments July 19 on whether parents can collect damages for premature birth and subsequent death of a child due to injury of the mother in an accident.

In other questions the high court:

Agreed to review the \$200,000 judgment favoring a workman who was burned when his bulldozer burst an underground pipeline in

Brazoria County.

Upheld a trial court decision awarding damages to a woman who lost her hair from application of a lanolin bath on bleached hair (extending doctrine of strict liability to cases other than foodstuff).

Found parents of injured child who poured kerosene on smoldering stick are not barred from suit against an oil company which allegedly adulterated fuel with gasoline.

AGRICULTURE AND THE URBAN LEGISLATURE —

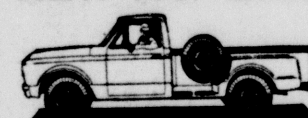

Although the lawmakers turned down a proposal for creation of a coordinating board to study problems in agriculture, Agriculture Commission John C. White was given the job — and the money — to make the sort of studies envisioned for the proposed super-board.

In the appropriations bill, funds were earmarked for studies on ways to expand marketing outlets for Texas commodities and research on boll weevil eradication, aflatoxin control, peanuts, plums, peaches, dairy products, fire ants, castor beans, vegetables, cotton, mohair, wool and statistics on county farms.
